Address

Arun Joseph
Manimalatharappil (H)
Angadikadavu (P.O)
Kannur (Dt)
Kerala
PIN: 670706

Personal Data

Father's Name : Joseph M.K
Mother's Name: Lovely Joseph
Date Of Birth : 18-08-1992
Gender : Male
Marital Status : Unmarried
Nationality : Indian

Computer Programming

- Embedded C/C++, C, C++
- Perl, Python
- Regular Expressions
- PHP, Java Script, HTML
- MySQL
- Java
- Batch Script

Career Objective

To solve problems creatively and effectively in a challenging position by applying and enhancing knowledge and skills.

Education

2023-2025	Coventry University, UK MTech in Automotive Software Engineering
2015 - 2017	Manipal Institute of Technology, Manipal MTech in Computer Science and Information Security GPA: 8.20
2010 - 2014	Srinivas School of Engineering, Mangalore BTech in Computer Science and Engineering Percentage: 68.26%
2008 - 2010	GHSS Manathana, Kannur Higher Secondary: Computer Science Percentage: 80.75%
2005 -2008	St. Augustine High School, Ernakulam SSLC: Kerala State Syllabus Percentage: 85%

Work Experience

2023 May – Present	KPIT Technologies
2019 August – 2022 July	Engineer at Qualcomm
2017 June - 2019 August	External Employee at Infineon Technologies
2016 August - 2017 May	Internship at Infineon Technologies

Projects

- **AUTOSAR MCAL CAN Driver (June 2023 – Present):**
Development of MCAL CAN Driver compliant to AUTOSAR standards
 - Architecture and design documentation
 - Driver development in C
 - Test cases development in C
 - Static analysis (MISRA, KLOCWORK)
 - Configuration development for Davinci
 - Unit Testing
- **DXII UMD (Qualcomm, Aug 2019 – July 2022):**
Development of User Mode Drivers for Adreno GPU is done in this project. Responsibilities:
 - User Mode graphics Driver development in C++
 - Performance testing
 - Corruption analysis and mitigation

Tools

- Git/Gerrit
- Jenkins
- Tresos
- Davinci
- Parasoft
- Tessa
- JIRA
- Enterprise Architect
- MS Office
- Orbit
- 3D Mark
- DXCap

Operating System

- Windows 7,8, 10
- Linux

Languages Known

- English
- Malayalam

Personal Strengths & Skills

- Smart working
- Flexibility
- Quick Learner

Extra-Curricular Activities

- Worked in National Service Scheme
- Organized the national level program Tech Yuva

Achievements

- GATE qualified with AIR 9044 in 2014

- **AURIX 2G** (Infineon Technologies, June 2017 - June 2019): Development of MCAL drivers for second-generation AURIX microcontroller is done in this project. Responsibilities:
 - Documentation of Architecture, Design, and User Manual
 - Driver development in C for Sent, Irq, Uart
 - Development of configuration plugin files compatible with the tool Tresos
 - Polyspace, MISRA analysis, and unit testing with TESSY
- **Tessibility** (Infineon Technologies, Nov 2018 - Dec 2018): Tessybility is a tool developed to ease the traceability of TESSY test cases to the code.
- **BMD Automation** (Infineon Technologies, Jul 2018 - Aug 2018): BMD files of each device derivative had to be updated for the changes of XDM file. This project was done to automate the process of updating BMD files when there is a change in XDM file on GIT push.
- **User Manual Automation** (Infineon Technologies, Jun 2017 - Sep 2017): User Manual is a document given to the customer explaining how to use the module. Part of the user manual is also documented in Architecture and Design. This tool helps to extract the data which is already documented and gives the user interphase input specific data. Responsibilities:
 - Development of web interphase for a user to input data
 - Python script to convert HTML to Document format
 - Python script to convert Document format to HTML
- **Release Note Automation** (Infineon Technologies, Jan 2017 - May 2017): Release note is the document that lists the specific information about the release. This tool helps to draft that information from different sources and allows to make the necessary modifications manually. Responsibilities:
 - Web interphase to update the release note manually
 - Python script to extract the data
 - Script to convert the documentation to HTML and reverse
- **Integrated build and release module for automotive software**(Infineon Technologies, Aug 2016 - May 2017): This project was done to reduce the effort of the developer to do different configuration management activities. Responsibilities:
 - Authentication of developer
 - Interface for the user to give inputs and trigger the activity.
 - Scripts to trigger Jenkins and read the execution status from Jenkins

Reference

- Dinesh K M, Architect, KPIT Technologies
- Dr. U Dinesh Acharya, Professor, Department of Computer Science, Manipal Institute of Technology.

- Vector Certified Embedded
Associate in Autosar Classic

Declaration

I hereby declare that the information furnished above is true and correct to the best of my knowledge and belief.
